PRELIMINARY TECHNICAL DATA SHEET

SV-1173

Ultra-Dull Sheetfed Overprint

SV-1173 is a high performance, ultra-dull overprint varnish. The unique raw materials used in **SV-1173** allow the OPV to print dull (wet) and dry dull. It's dull finish is especially resistant to polishing or burnishing. This press ready material is formulated to achieve the ultimate in a matt finish with exceptional lithographic properties.

Typical Properties:

Tack (1200 rpm 1 minute): 6

10/14/26
