No foam RC31

Anti foaming agent

Specialities

Pro 6 x 100 millilitres: **Art.code** PYNHJ

No foam RC31 is an emulsion formulated to prevent or reduce foam. No foam RC31 mixes very well in aqueous solutions. This prevents any further air absorption by the surface and subsequently reduces the foaming process. It is compatible with most liquid systems, independent of their chemical nature, although the quantity of No Foam RC31 to be used should be kept to an absolute minimum.

Working instructions

Fountain solutions

- Can be added to the mixed fountain solutions : 0.25 – 0.5% (25 – 50 mL per 10 litres)
- It is recommended to premix No Foam RC31 first with the fountain solution before usage.

Developers

- Can be added to the developer : 0,01% (1mL per 10 litres)
- It is recommended to premix No Foam RC31 first with the developer solution before usage.
- Avoid the product splashing into the rinse section.

Remark

- The quantity of No Foam RC31 should be kept to an absolute minimum.

Main characteristics

- Anti foaming agent.
- Compatible with most aqueous solutions.

Properties

Chemical	Appearance	white emulsion
	pH (25°C)	6,5
	Density (25°C)	1,010 kg/Litre
	Water miscible	✓
Dosage	Fountain solution	0,25 - 0,5%
	Developer	0,01%

Safety

Read MSDS before using this product.

Storage

- Store at room temperatures in a dry, well ventilated area.
- Keep away from heat and direct sunlight.
- Keep the containers closed.
- Shelf life: 12 months from date of manufacture.

Waste

Collect if possible, send to authorized disposal centres, in accordance with local and national regulations.

Agfa plate compatibility

No Foam RC31 may NOT directly come in contact with the printing plate surface.
