Varn Ink Readi

Prevents skinning in cans and on ink rollers

Varn Ink Readi is a formulation of anti-oxidants which apply a protective film to avoid ink skinning on rollers, in fountains and in ink cans. This is a professional formulation and will not change the colour, consistency or drying speed of any offset or letterpress ink.
Varn Ink Readi can also be used as a blanket lubricant to reduce tack on start-up, thus minimising the risk of wrap-around.

Features	Advantages	Benefits
Effective anti-oxidant blend.	Retards ink drying and skinning.	Reduced ink waste.
Wide angle aerosol applicator.	Easy to apply.	Excellent ink coverage.
Blanket lubricant.	Fast, trouble-free start-ups.	Helps reduce web breaks and minimise wrap-around.

Product Benefits

- Prevents ink skinning.
- Economical.
- No fluorocarbons.
- Compatible with all inks.
